

Star Born

Lovedrug

All stars, wake up
Pretty hair by the emerald sea
Cool breeze, warm skin
Arms wide as the tide rolls in

Look around, float around
All storms in the background
Star born, be brave
Ever wander if you might be home?

Lost in love
No pain, no cross
Be lost in an ocean with me

Lost in love
No pain, no cross
Be lost in an ocean with me

Star born, be brave
Go adrift on a summer wave
Nice dream, cool wind
Eyes closed as your life begins

Look around, float around
All storms in the background
Star born, be brave
Do you ever wonder what it's like to stay?

Lost in love
No pain, no cross
Be lost in an ocean with me

Lost in love
No shame, no cost
Be lost in an ocean with me

Lost in an ocean with me
Lost in an ocean with me
With me

You're star born, like me

Lost in love
No pain, no cross
Be lost in an ocean with me

Lost in love
No shame, no cost
Be lost in an ocean with me
