

The Danger Zone

Lovedrug

I love the way that the stars echo your sound
I love the way that the sun sets on your crown
I love the way that you're keeping me around
I love you so my soul glows underground

So pick me up,
(Hey) Don't let me down it's heating up in the danger zone
(Hey) We're blowing up, do you feel the heat in the danger zone
(Hey) We'll incinerate all of our bitter days and sail away
(Hey) I'll pick you up, won't let you down in the danger zone

I love the way that the fire shines on your face
I love the way that your minds in outer space
I love the way you create without a trace
I've got the notion that my life is not a waste anymore

So pick me up,
(Hey) Don't let me down it's heating up in the danger zone
(Hey) We're blowing up, do you feel the heat in the danger zone
(Hey) We'll incinerate all of our bitter days and sail away
(Hey) I'll pick you up, won't let you down in the danger zone

(Hey) Don't let me down it's heating up in the danger zone
(Hey) We're blowing up, do you feel the heat in the danger zone
(Hey) We'll incinerate all of our bitter days and sail away
(Hey) I'll pick you up, won't let you down in the danger zone
