

# America Underwater

Lovehatehero

I used to feel so invincible  
'Til I was seconds away from losing everything  
There's nothing worse than feeling alone  
And my world was falling  
With no one to catch me  
It all seems so trivial  
I guess I'm not as strong  
Not even close

I'm on my own  
Never been more afraid to leave  
Our love has gone  
Hand in hand and we'll sing this song  
We've lost our homes  
It's only gonna get better  
If we work as one  
Tomorrow can be brighter for us all

It's all over now and again and maybe after  
I can just skip straight through the second chapter  
Wake up with my whole life around me  
Blink twice it's falling to pieces

It can't be worse than feeling alone  
And my world was falling  
With no one to catch me  
It all seems so trivial  
I guess I'm not as strong  
Not even close

I'm on my own  
Never been more afraid to leave  
Our love has gone  
Hand in hand and we'll sing this song  
We've lost our homes  
It's only gonna get better  
If we work as one  
Tomorrow can be brighter for us all

We're a part of it  
Can't deny it  
Our hearts are all bleeding as one  
From the east side, to the west side  
I'll turn my back on no one

I'm on my own  
Never been more afraid to leave  
Our love has gone  
Hand in hand and we'll sing this song  
We've lost our homes  
It's only gonna get better  
If we work as one  
Tomorrow can be brighter for us all (2x)
