

# Spinnin' My Wheels

Loverboy

I was driving alone, Down that long, long road  
When I lost my way  
As the lines went flashing by  
Without you in my life  
I couldn't hold on one more day

And when your not by my side  
I feel nothin' at all, that's living proof  
That I can't live without you.

R:  
I was spinnin', spinnin', , my wheels  
Goin' nowhere fast, what could I do?  
I was spinnin', spinnin', my wheels  
And now I give my heart and my soul to you.

And the wheels, wheels go round and round  
And the wheels, wheels go round and round

Now hold onto me, you got nothin' to hide  
As lovers we can make the grade  
I'm ready for the ride  
So many nights I lie awake  
Wondering where you've been all my life

R:
