## If She's Near

I'm up against the best 'Cause whenever she is near I'm my own worst enemy Forbidden and so dangerous But in spite of all we've been through I can't flee (Ignite) I'm about to hit the floor (Right now) I shouldn't have begged for more (This fight) I fight against myself (This time) I'm gonna lose so Hold me down I can't trust myself If she's near So please take me out of Here right now I can't trust myself If she's near So take me out of here Somebody help me awake I know this is surreal And she makes me feel Subconsciosly self-destructive 'Cause her lies are lethal but insanely seductive (This fight) I fight against myself (This time) I'm gonna lose so Hold me down I can't trust myself If she's near So please take me out of Here right now I can't trust myself If she's near So take me out of here Hold me down I can't trust myself If she's near So please take me out of Here right now I can't trust myself If she's near
