

# Sleeptight

Lovex

Forget all your worries  
The bleeding and suffering  
Let your mind rest and live a little more

Forget all your worries  
Those wounds and the stumbling  
Leave all your bullets to the sidelines

Oh how the lights suddenly disappear  
And the world falls asleep to the sound of angels singing  
The prettiest symphony  
And life lies halfway to the night

Forget all your worries  
Remorse and insanity  
Just close your eyes  
And sleep tight...zzzz...zzzz...zzzz...zzzz
