In the Drugs

was a child I was on fire But I stayed alive While all else died

I held my breath What could I say And I closed my eyes Like Marvin Gaye

But now I've had enough It's in the drugs It's in the drugs It's in the drugs, ahhh It's in the drugs

You had your plan A heavy hand But the weight was more Than you could stand

Breaking like dolls Singing like birds We always get What we deserve

But now I've had enough It's in the drugs It's in the drugs It's in the drugs, ahhh It's in the drugs It's in the drugs
