Long Way Around the Sea

We've come so far We've followed the star Harod heard Said "bring me word" Take the long way around the sea

Here for us A humble birth The son of God Descends to earth Take the long way around the sea

On Christmas day On bended knee Please accept The gifts we bring Take the long way around the sea Take the long way around the sea

We turn to go An angel shone Said, "don't go back To harod's throne" Take the long way around the sea Take the long way around the sea

Take the long way around the sea Take the long way around the sea
