

Two-Step

Low

And the light, it burns your skin
In a language you don't understand

It's not that hard
It is not that hard

That's not all
Voices small
Heed them either way they call

Two-step around the room
Kneel down on white
Two-step around the room
Kneel down on white
Two-step around the room
You can kneel down on white
Two-step around the room
You can kneel down on white

That's not all
Voices small
Heed them either way they call

And the light, it burns your skin
In a language you don't understand
