Only if I whisper do the words come clear but
Only if I'm civil do the matters unravel
And if you're really on that hunger tip
I can show you a sample
Show you a sample
Show you a sample

(You don't want it!)

Whatever's clever let's just make this better tonight
Whatever's clever (whatever's clever)
Baby, is that better for you?
Whatever's clever (clever)

Let me put it down for you
'Cause you know where I stand
I saved you. Don't like it?
Come on and stop me

Only if I whisper and alone I shiver
Only if I suffer do matters unravel
And if you want that lethal stuff
I can show you a sample
But don't be scared
'Cause baby this love is for you

Only if I suffer do the words come whisper
Only if I'm civil do matters unravel
I can show you a sample
Can you feel...
Can you feel me?
Can you feel me now?

I just had to be clear
I just had to be...

Only if I whisper and alone I shiver
Only if I suffer do matters unravel
Only if I'm civil do the words come whisper
In a way you wouldn't like
If you could only see what happened
I can show you a sample

Only if I suffer do matters unravel
Only if I whisper
Only if I whisper!
Whisper!
