

House on Fire

LP

I can't say yes or no
We'll never know, just lay low
The timing gets to me
I guess we'll see as days go
Believe in the light
'Cause it's true that we burn with blue light
Something so wild
Shows its teeth and its worst when it bites

'Cause when you come home at night
I see it in your eyes
You see it in mine just like a bull
Before the fight
They say only love, only love, only love
Can save us
Oh baby I hope it's just
Another house on fire

I'm asking, let me know
Oh let me go, just say so
Is there a therapy
To let it bleed away, oh
Tell me we're fine
I wish only to be on your side
Surrender our life
To the flame I hold on to survive

'Cause when you come home at night
I see it in your eyes
You see it in mine just like a bull
Before the fight
They say only love, only love, only love
Can save us
Oh baby I hope it's just
Another house on fire

Tell me we're fine
I wish only to be on your side
Surrender our life
To the flame I hold on to survive

'Cause when you come home at night
I see it in your eyes
You see it in mine just like a bull
Before the fight
They say only love, only love, only love
Can save us
Oh baby I hope it's just
Another house on fire
