

## Kiss It All Goodbye

LP

You think you're special  
You always have  
You're finding out hard core what its all about and now  
You're not so sure

Blinders off  
Glasses on  
The camera's off  
We're moving on to where  
We're not so all alone

All the questions that you're throwing out  
We're running out of time  
Tossing figures with no amount  
It isn't yours and it's not mine

I am winning  
You are losing  
We are winning all alone  
But we're not so all alone  
We're moving on to where we're not  
So all alone  
We're moving on  
We're moving on

Kiss it all goodbye  
We're going down  
When did it get so hard  
We're underground I always thought we'd fly

Guess I was wrong
