Salvation

When you arrived at my door I didn't recognize My salvation And the light on the shore, it was in your eyes My salvation And all I really wanted to do Was make love to you And retreat into my isolation Salvation, salvation I was cold and afraid, so I locked you out By temptation And the kiss that you gave couldn't tie me down I just take them And all you really wanted to do Was to lead me through All my loneliness and desperation Salvation, salvation And I can feel now And I can feel now Yeah, love is real now Yeah, love is real now Salvation

Salvation, salvation, salvation, salvation Salvation, salvation, salvation
