

# The One That You Love

LP

Now that you've got what you wanted  
Now that you've got what you need  
Girl, if we're gonna be honest  
Honestly, what's left for me  
Oh oh oh oh oh

Cause all I got  
Is close but not  
And all I want is to know just how

Try to be the fire for you, try to be the sun  
Try to be your home and the place that you come to  
Babe, I took the whole world and put it in your hands  
I'm really trying hard but I don't understand

Tell me, oh oh oh  
How to be the one that you love  
Oh oh oh oh oh oh  
How to be the one that you love

Don't treat my love like a habit  
Why don't you show me a way  
I'd give it to you, you can have it  
I just wish I knew what to say

Cause all I got  
Is close but not  
And all I want is to know just how

Try to be the fire for you, try to be the sun  
Try to be your home and the place that you come to  
Babe, I took the whole world and put it in your hands  
I'm really trying hard but I don't understand

Tell me, oh oh oh  
How to be the one that you love  
Oh oh oh oh oh oh  
How to be the one, how to be the one, how to be the one

Try to be the fire for you, try to be the sun  
Try to be your home and the place that you come to  
Babe, I took the whole world and put it in your hands  
I'm really trying hard but I don't understand

How to be the one oh oh oh  
How to be the one that you love  
Oh oh oh oh oh oh  
How to be the one that you love  
Oh oh oh oh oh oh  
How to be the one that you love  
Oh oh oh oh oh oh  
How to be the one  
How to be the one that you love
