

Heartbursts

Lucius

Maybe we could live forever
If we only closed our eyes
We'd be living in a dream
We would always be together
With no need to sacrifice
But we gotta face reality

Can we open our eyes now?
Can we open our eyes now?
Heart bursts, heart aches
We don't know the shape
Shape that this will take
It's worth the wait
Better give your heart than never
Give at all

Maybe we could live forever
Even only for a day
Just one look could stop the time
We could hold it like a treasure
A memory burned in your mind
Even if we say goodbye

Can we open our eyes now?
Can we open our eyes now?

Heart bursts, heart aches
We don't know the shape
Shape that this will take
It's worth the wait
Better give your heart than never
Give at all

Giving it all for the hopeful heart
What if we find that the best is coming?
If we never show
We could miss the start of something

Gonna give into the hopeful heart
Risking it all just to live for something
You know falling short doesn't mean
It's all for nothing

Heart bursts, heart aches
We don't know the shape
Shape that this will take
It's worth the wait
Better give your heart than never
Give at all
