

Second Nature

Lucius

My love is like a hit and run but I come back
Blue eyes and summer fun, a heart attack

It was never enough
The summer of love
It was nothing
It was never enough
The summer of love
It was ah

Feels like second nature
All this bad behaviour
I know I shouldn't want to
But every time I'm with you
I feel like I could fall apart
Like dancing with a broken heart

Your love is like a smoking gun, right in my path
Earthquakes and butterflies, do you feel that?

It was never enough
The summer of love
It was nothing
It was never enough
The summer of love
It was ah

Feels like second nature
All this bad behaviour
I know I shouldn't want to
But every time I'm with you
I feel like I could fall apart
Like dancing with a broken heart

I just can't get enough
I just can't get enough
I just can't get enough
I just can't get enough

I just can't get enough
I just can't get enough
I just can't get

Feels like second nature
All this bad behavior
I know I shouldn't want to
But every time I'm with you

Feels like second nature
Just a brush with danger
I know I shouldn't want to
But every time I'm with you
I feel like I could fall apart
Like dancing with a broken heart

(I feel like falling, I feel like falling)
I feel like I could fall apart

(I feel like falling, I feel like falling)
Like dancing with a broken heart
