

And I see you there on a wave of life and I wonder how  
It could all be so pure  
And I go along just for the ride and I hope for a  
Journey like a child, sure  
Of what he wants and of what he needs and to dive in like  
There is no tomorrow  
Let's see this through to something new, we'll pay the price  
If we beg of borrow

Hold me down to the ground  
It's safe if I am not allowed  
To go out

And you wake up broke but you feel just fine, too young to  
Know what happens inside  
And you hear the thoughts that you shut outside, looking for  
Something you may not find  
Cause I want to know how it feels so good, when we stay up and  
Love the dark through and through  
But the sun will rise and we'll rise up too, remember that  
It's not just me and you

Hold me down to the ground  
It's safe if I am not allowed  
To go out  
Hold me down to the ground  
It's safe if I am not allowed  
To go out

On the count of now, on the count of here  
Of I see you there  
Won't you look at me

Hold me down to the ground  
It's safe if I am not allowed  
To go out  
Hold me down to the ground  
It's safe if I am not allowed  
To go out  
Hold me down to the ground  
It's safe if I am not allowed  
To go out  
Hold me down to the ground  
It's safe if I am not allowed  
To go out
