

# Gone Away

Lucy Schwartz

I've been finding puzzle pieces of us, kept in the dust  
I've been hiding letters and photograph frames  
To forget your name

We were never meant to be this damn broken  
Words were never meant to be this half-spoken

Falling in  
The space between  
The universe  
And all we see has  
Gone away, Gone Away

I've been tracing my steps in fingerprint clues, and clips of the news  
Wondering why in our in our lives the wind calls our name  
And we're never the same

We were never meant to be this damn broken  
Words were never meant to be this half-spoken

Falling in  
The space between  
The universe  
And all we see has  
Gone away, Gone Away

Winding Circles, Take me back to  
The place I knew when I was with you

Falling in  
The space between  
The universe  
And all we see has  
Gone away, Gone Away
