

# I Am A River

Luka Bloom

Underneath the oak tree  
Underneath the sky  
I listen to the newborn lambs cry  
Cry out for nipple  
Soon be out to grass  
Everything is changing  
Too soon, too fast

I am a river passing through  
I am a river passing through  
I am a river passing through  
I am a river passing through  
This is what we do

Standing at a corner of a Dublin street  
Stare into a sea of busy little feet  
Going about our business  
Rush, push, shove  
Hoping in our lifetimes  
We'll find and be in love

I am a river passing through  
I am a river passing through  
I am a river passing through  
I am a river passing through  
This is what we do

We're all passing through  
Passing through...
