

## See You Soon

Luka Bloom

I hope I love you enough to let you go  
On the road only you can see  
I hope I love you enough to let you go  
And loosen the hold that you have on me

I want to bless you on your way  
Say always to yourself be true  
I hope you know there is no sweeter place in the world  
Than the places I have been with you

See you soon, see you soon

The weakness in me fills my heart with fear  
Telling me to control and try to keep you here  
The spirit in me that's what is good and true  
Telling me to be strong, and trust the letting go of you

See you soon, see you soon

The road waits patiently before you  
Away you go now  
Don't even look behind  
Fill yourself with riches from the times we knew  
I'll keep your goodness here  
In my heart and in my mind

See you soon, see you soon

I hope I love you enough to let you go...
