

# Don't Touch The Flame

Lullacry

I wish you well, hope you understand  
If I could only tell (if I could only tell)  
Choice you have to make - a beggar or the throne  
But please don't

Touch the flame that burns inside  
It will keep you safe and alive  
This empty memory lane  
Is filled with the touch of a flame

Who am I, ever to judge you  
Repeat the fears (repeat the fears)  
Can you feel it feel it on your skin  
But please don't

Touch the flame that burns inside  
It will keep you safe and alive  
This empty memory lane  
Is filled with the touch of a flame

Touch the flame that burns inside  
It will keep you safe and alive  
This empty memory lane  
Is filled with the touch of a flame

Open up your soul and let love in  
But please don't touch the flame

Touch the flame that burns inside  
It will keep you safe and alive  
This empty memory lane  
Is filled with the touch of a flame

Touch the flame that burns inside  
It will keep you safe and alive  
This empty memory lane  
Is filled with the touch of a flame

Touch the flame that burns inside  
(Don't touch the flame)  
It will keep you safe and alive  
(Don't touch the flame)  
This empty memory lane  
Is filled with the touch of a flame

Don't touch the flame  
Don't touch the flame
