

Boy

Lulu

Nothing inside you, just anger and rage
Drinks a substitute, soul betrayed
You'll never change

Nothing in your life, fights backstage
Trying for attention, making us afraid
You're downright insane

Oh rock 'n' roll boy
You think you're cool
Oh rock 'n' roll boy
You just sit there and drool
You drool and drool

Nothing to tell us, nothing to say
No direction, fame is just your game
You're so damned vain

Oh rock 'n' roll boy
You think you're cool
Oh rock 'n' roll boy
You just sit there and drool
You drool and drool

Nothing to care for, can't even pull
You think you're sexy, you're so uncool
Try to impress me, you fool

Oh rock 'n' roll boy
You think you're cool
Oh rock 'n' roll boy
You just sit there and drool
You drool and drool

Nothing to care for, can't even pull
You think you're sexy, you're so uncool
Try to impress me, you fool
