

Dreary Days and Nights

Lulu

Dreary days and nights just follow me
Dreary days and nights are all I see
Always missing his sweet sound
Knowing that he's not around
Keeps that same old feeling, hanging by
Just hanging by

Dreary days and nights are part of me
Since he's gone, I call it company
I'm still looking for a clue
To stop that feeling known as blue
I've just gotta get out
Of my trance, my only chance for some peace

Peace of mind to make me feel free
And also one way to be
Full of good feeling, inside of me

Dreary days and nights when will they go?
The feelings that I've got, I'd like to send
On their way and then just yearn
For nothing else but your return
Someone, please, have mercy
Make it come true
We'll start a new home again

Dreary days
Dreary days
Dreary days
