

I'll Come Running Over

Lulu

Oh yeah, now I'm sorry baby
I didn't mean to make you cry
Come on, now forgive me honey
I'll never tell another lie

You know that if you need me
All you gotta do
Is pick up your phone and call me
I'll come running, ooh

I'll come running, ooh
I'll come running, oh
I'll come running, oh
I'll come running, oh
I'll give my love to you

Your friends they used to love me
If you do why don't you show it
Somehow I know that you still want me
Come on now, baby, make me...

You know that if you need me
All you gotta do
Is pick up your phone and call me
I'll come running, ooh

I'll come running, ooh
I'll come running, oh
I'll come running, oh
I'll come running, oh
And I'll give my love to you

Now come on honey think it over
Don't let your foolish pride end it
If I have broken your heart baby
Then give me one more chance to mend it

You know that if you need me
All you gotta do
Is pick up your phone and call me
I'll come running, ooh

I'll come running, ooh
I'll come running, oh
I'll come running, oh
Every day
In the midnight hour
When you need my loving
When you want it bad
