

She Will Break Your Heart

Lulu

She don't love you like I love you
If she did, she wouldn't break your heart
She don't love you like I love you
She's try-in' to tear us apart

Fare thee will, I know you're leavin' (I know you're
leavin')
For the new love that you've found
The pretty girl that you've been dating, whoa
I go a feelin' she's gonna put you down 'cause

She don't love you like I love you
If she did, she wouldn't break your heart
She don't love you like I love you
She's try-in' to tear us apart

She uses all the great quotations
Says the things I wish I could say
Whoa, but she has so many rehearsals
Boy, to her it's just another play but wait

When the final act is over
And you're left standing all alone
When she takes her bow and makes her exit
I'll be there to tak you home

She don't love you (and she never will) like I love you
If she did, she wouldn't break your heart
