

For Keeps

Lumidee

Somethings changing in my mind
I'm looking for a key
You came through but just passed by
Gave me enough to see
I'm looking for no other guy
I'll search until I find
Thinkin' of just you and I
You and I

Do you wanna, wanna know how
How it's all gon', gonna go down
I believe that, me and you can
Get together, we can be that

Patiently I'm waitin' for (I'm waitin' for) you to notice me
I know you have what you don't know (You just don't know)
How deep are my feelings
It's something that I just can't hide (I just can't hide)
I'll just push it aside
So won't you just give me a try (Give me a try)
Me a try

You could take me, mate me
Please don't break me
Wanna have it together so we can rock daily
This beautiful site in front of my eyes
Got me up in a sweat, breakin' out in hives
Had to swallow my pride, couldn't let him go by
So I step to my Benz, let him know what it is
In the future maybe we could have some kids
But for now let's get to know each other
And just live

My feelings are too strong to hide anymore
So I let you know (let you know)
I'm dealing wit' my heart not pride
I need more so I let it show (let it show)
If you wanna be by my side, maybe don't hide
It's you and I (you and I)
