

If my sins and my past can be forgiven I want to get closer to
you who is pure white
Let's go to the past Passing through the grey clouds To the pur
e white times that do not know of impurity

Only you...

You seem to be able to see [through] my heart Do you know my si
ns and my past
You are like the gentle breeze that heals the wounds deep in my
heart

I want to get closer I cannot get closer You who do not know an
ything
Is there [such a thing as] an innocent love? Glittering

Only you...

These painful feelings Where do they come from
I can never get closer I don't want to hurt
This pain that seems to gouge my heart Where does it come from
It's alright even if it ends in a dream If it is for you

I want to get closer I cannot get closer Are you dreaming?
If there is [such a thing as] an innocent love You...

You are smiling now Am I dreaming?
Like the innocent aurora Glittering

Only you...
