

Dark Vision

Lunar Aurora

Nights of ceremonial union
High priests of black divine
Summon the black knights
From beyond the darkened veil
Into the night sky above
Moon in blades reflecting
Cover the souls with an unholy pale light
Soon turning into darkness
Forever watched by the eye above - beyond
Caught by one black knight or another
The nights growing endless
Under the reign of the priests
Summoning the eternal unlight
Awaiting a spark of time
A mighty black wizard enters
Into the infinite black skies
Now and forever
For a cold void vision
In eternal time
