

Standing At The Crossroads

Luther Allison

I say love lost this time baby
I was standing down at the crossroads

I say love lost this time baby
I was standing down at the crossroads

Yes I saw you with another man
And I wondered where you were going

You told me you loved me before you left
And I didn't understand a word you say

Oh you told me you loved me before you left
I didn't understand a word you say

I lonely out here by myself
Because I don't want nobody else

Whoa yeah

Oh I said woman
Told you I was going away

Oh I said pretty baby
I told you I'm going away

I told you that I'd miss you
And I'll worry every day
