You Don't Know

Luther Allison

Now come on baby, can't you stand the test Now come on baby, can't you stand the test I'm sick and tried of all your mess

Whatcha gonna do girl when I'm gone
Whatcha gonna do baby when I'm gone
Open your eyes you been crying all night long

Mama treat your daddy mean

Mama treat your daddy really mean

Your the meanest girl that I ever seen, listen

You don't know, like I know I can't know, you don't know

Yeah babe take me by the hand Baby take me by my hand Walk me like you walk your dog I'll understand

Your a mean wowan, mean and mean no good Your mean mean mean your mean no good You don't treat me baby like you should

Tears in my eyes
I can't lie
Can't say good bye
I don't know why

I love you, anyway, anyway, anyway, anyway I love you, anyway, anyway, anyway, anyway, anyway, anyway now

This I know
You can't go
Yes it's true
I love you
