

A Far Away Place

Lycia

I really want to be
In a far away place
There's nothing around here
That makes me want to stay
Every thought throughout the day
Is of a far away place
I'm counting down the time
And wishing for the day
So far from home
I'm heading out the door

To a far away place
Drive me in your car
And take me to the aeroplane
I am going to
A far away place
And leaving this behind
I will never be the same
So far from home
I'm flying in a plane
To a far away place
