

Devil

Lydia

So if you have to think about it?
Just think about it real slow
We're on a mission for the devil,
Even if it breaks some bones
It's blue and red as far as I can see
I know you're going to find that devil
But you'll need some company

Happy are we, in our own world
Happy are we, bare bones my girl

So if I never talk about it?
Just talk about it real slow
We're still trying to find that devil
I think I'm getting close
Yeah, it's blue and red as far as I can see
I know you're going to find that devil
But you'll need some company
Just take it away

Happy are we, in our own world
Happy are we, bare bones my girl

We were just sitting there, stoned, watching the waves
Where they'll bury my bones
You were smiling, ear to ear, saying oh baby let's just go
Live and run, that's what I'm good at
Live and run, that's what I do when my words bleed out again

Happy are we, in our own world
Happy are we, bare bones my girl
