Lyfe Jennings

She just wanna be...
She just wanna be...
She just wanna be famous
Lyfe Jennings in the building
I know what you want
She just wanna be...
I know what you like
Let's get it

Tonight we're young
Boy she knows just who she is
And she what she wants
She has expensive taste
And she can spot a broke ass...
From a mile away

She dreams and she just wants
To release a little pressure
When your day's stressful
She gets all the attention
And it's no wonder why she's at the club every single weekend

She just wanna be famous for one night
She wanna feel like she's made it once in her life
She loves the look on their faces when they watch her wind
She just wanna be famous for one night

She seems naïve
But don't let that young face you,
She knows exactly
Why she's in the VIP
And it's not because what's in her heart
And she has in those jeans

She plays her part
And pretend she's really interested when you flirt with her
But if they only knew
She's attracted to the attention and not to you

She just wanna be famous for one night
She wanna feel like she's made it once in her life
She loves the look on their faces when they watch her wind
She just wanna be famous for one night

Walks in the hallway, C-Thru blouse
iPhone 4 with the case iced out
Fresh off the porch with a blunt in her mouth
She from up north but her man down south
20 on her wrist, no she didn't buy that
But you get this when yo ass that fat
Forget about the DJ, she can entertain us
Youngster put me on, I'mma make that name as famous

She just wanna be famous for one night
She wanna feel like she's made it once in her life
She loves the look on their faces when they watch her wind
She just wanna be famous for one night
