

# Winner

Lyfe Jennings

Everybody loves a winner  
Losers only get to lose  
Everybody loves a winner  
It makes us feel like we're winners too  
Everybody loves a winner  
The lights, the kisses, the hugs  
Everybody loves a winner  
A winner, a winner

You're okay with the rest now  
You can feel the rush of the moment all in your chest now  
You're tryin to catch your breath now  
You're the best now  
And it feels so damn good  
This is what you've been waiting on  
All the sacrifice and then all the pain is finally paying off  
It's much more than you ever thought  
You're a king for a day, you're a king for day  
Let's go

Turn up the lights in this place  
We wanna see your face

Everybody loves a winner  
Losers only get to lose  
Everybody loves a winner  
It makes us feel like we're winners too  
Everybody loves a winner  
The lights, the kisses, the hugs  
Everybody loves a winner  
A winner, a winner

This is history now  
You're officially living the life that everybody dreams now  
And finally you're so proud  
You can breathe now and it feels so damn good  
It's like you work your whole life  
Giving up everything in exchange for this one night  
But this isn't just one night  
It's the one night we made it, the one night we waited for

Turn up the lights in this place  
We wanna see your face

Everybody loves a winner  
Losers only get to lose  
Everybody loves a winner  
It makes us feel like we're winners too  
Everybody loves a winner  
The lights, the kisses, the hugs  
Everybody loves a winner  
A winner, a winner

So turn up the lights in this place  
We wanna see your face

A winner, a winner

A winner, you're a winner  
A winner, a winner
