Take Your Time

Lynyrd Skynyrd

My poor broke mama told me When I was twelve years old You eat and talk much too fast There's one thing you should know Take your time my sweet baby Take your time my blue eyed son Well you may never have his money But you won't miss no rich man's fun I can never give you money honey I can never buy you clothes But the way them women been lookin' at you Someday you should have both If you take your time my sweet baby Take your time and love them slow And if you play your cards right You won't never wait no more

Well the ladies like their diamonds They like their brand new clothes But I was blessed with plenty of other things they love the mos t I take my time with the ladies I take my time and I love 'em slow And since I turned thirteen Lord, I ain't never wait no more

I can never give you money honey I can never buy you clothes But the way them schoolgirls look at you Someday you should have both If you take your time my sweet baby Take your time and be my son Well you might never have his money But you won't miss his fun
