Leave me alone Stop calling me at home Where did you get my number anyway? Don't write me e-mails Don't knock on my door Don't you remember you didn't love me no more? Now it's over It's nothing called you and me It's over Oh why can't you see? What I'm trying to say is Get out of my way Yeah, it's over It's nothing called you and me It's over Oh why can't you see? What I'm trying to say is Get out of my way! I'm not your girl Not even your friend What makes you think I wanna try again Don't buy me roses Don't even try And remember, big boys they don't cry Now it's over It's nothing called you and me It's over Oh why can't you see? What I'm trying to say is Get out of my way Yeah, it's over It's nothing called you and me It's over Oh why can't you see? What I'm trying to say is Get out of my way! I'm tired of hearing my friends say That you still care That you wanna come back into my life Well, I just want you out of there Now it's over It's nothing called you and me It's over Oh why can't you see? What I'm trying to say is Get out of my way Yeah, it's over It's nothing called you and me It's over

Oh why can't you see?

What I'm trying to say is Get out of my way!
