

## More to Life

Mac Lethal

Stop it  
I'm gonna be smiling this whole song  
That's not good  
Shhhhhh

Lalalalalalala....

There's more to life than love  
Cos sometimes love is cancerous too so the answer is you  
More than gettin' pissed with a black short fuse  
Girl there's more to life than those platform shoes  
And that make up, fake nails  
And all the other little things that I'm attracted to

Walkin' up and down the sidewalk  
Acting like you're the only female with a back tattoo  
I gotta laugh at you because I love it  
I got a sick and twisted crush  
Exotic and erotic filled with lust  
And I'm a probably miss the bus  
Just to touch you, to kiss you it feels like sniffin' rush

I don't wanna be a rapper with a Lexus  
I just wanna maybe add you to the guest list  
I think females are equal to males  
So I don't really wanna have the battle of the sexes.

Okay

There's just more to life than that  
What  
There's just more to life than drugs  
There's just more to life than rap  
Rap  
There's just more to life than love  
Okay  
There's just more to life than that  
Uh  
There's just more to life than you  
There's just more to life than rap  
There's just more in life to do

I felt the feeling of what it's like feeling depressed  
And I don't ever wanna feel it again  
So I'ma write these songs till I cannot move  
And the angels are peeling my skin  
I felt the feeling of what it's like feeling depressed  
And I don't ever wanna feel it again  
So I'ma write these songs till I cannot move  
And the angels are peeling my skin

There's more to life than love  
But good love got me feeling fortified and bugged  
And I just wanna pour my eyes and hug for days  
The girl that I mortified and shoved away  
Nice guys y'all girls don't need 'em  
So I'ma be a symbol of your freedom

Imma never give a disagreement if your sitting there and needin your space  
Ill be at the bar feeding my face

You can bet that in a minute or a second  
Imma kiss you on the neck and leave you scribbled in a nexus  
Yup  
Essentially respected but never in a center with a method that  
That belittles like a sexist  
I don't want to be a rapper you're impressed with  
I just wanna give a challenge to the best kiss  
I don't wanna hold you down and if you question me  
Then feel free to just ride on to the exit

Ok

Theres just more to life than that  
Than what  
Theres just more to life than drugs  
Than drugs?  
Theres just more to life than rap  
Than rap?  
Theres just more to life than love  
Okay  
Theres just more to life than that  
Yup  
Theres just more to life than beer  
Theres just more to life than rap  
Uh  
But I still love you here

I felt the feeling of what its like being depressed  
And I don't ever wanna feel it again  
So imma write these songs till I cannot move  
And the angels are peeling my skin  
I felt the feeling of what its like being depressed  
And I don't ever wanna feel it again  
So imma write these songs till I cannot move  
And the angels are peeling my skin

Shhh
