

## What the Heck Richard Speck (Eight Nurses You Wrecked)

Macabre

Richard Speck stayed in Chicago  
He took some pills and drank some alcohol  
He tried to wreck nine nurses but one of them got away  
He's rotting now in jail that's the way he's going to pay

Richard Speck lives off our taxes he thrives  
He strangled and stabbed eight nurses that night  
Richard Speck lives we pay for his meals  
Convicted for the eight student nurses he killed

What the heck Richard Speck eight nurses you wrecked  
What the heck Richard Speck eight nurses you wrecked

He tied them up inside of a room  
And one by one he caused so much gloom  
He stabbed and strangled eight nurses but one of them got away  
Twelve hundred years in jail that's the way he's going to pay

In jail Richard died no longer alive  
And he lived off our taxes several years of his life  
Richard Speck lived we paid for his meals  
Convicted for the eight student nurses he wrecked
