

# Down to None

Machine Head

Bow down to no one  
Bow down to none

Straight down  
Been going  
Been sleepwalkin'  
In a violent haze

This world  
In ruin  
The chain shackles  
Like a foul disease

This rage  
This struggle  
It is a feeling  
That's devouring

Can't break  
Can't fuckin' give in  
The pain will lead us  
Through the blistering

Cold

Bow down to no one  
Bow down to none
