

Out of the Dark

Mad Sin

I sneak around the corner like a dog on the bone
Each night I hear your voice on the phone
I'm the fire behind your eyes - the drug in your blood
I want lick you - I want to cover you in mind

And soon you will feel it
While the wind is blowing and the blood is boiling
It won't be no dream and no one will hear you scream
Crawling out of the dark

Here comes what you deserve soon they ring the graveyard bell
Hey baby - I will see you in hell
I'm a perverted daddio who observes you around the clock
Dead or alive you're gonna be my dog

And soon you will feel it
While the wind is blowing and the blood is boiling
It won't be no dream and no one will hear you scream
Crawling out of the dark

I got some lovely instruments - that's why they call me the chi
rurg
Just made to cut young soft skin
I'm spanking in your bed and hiding in the corner like a rat
Dead or alive to eat you won't be no sin
