

# Psycho Sideshow

Mad Sin

psycho sideshow in your brain - yeah, yeah  
we'll drive you insane  
psycho sideshow in your brain

my head once owned by a damn' ol' thug  
and they stole my legs from the local morgue  
there is more stuff like this for you in stock  
see us travelin' through the land with our crazy show  
and if you're strange too, come and join our crew  
but we might have you for lunch if you treat us like shit

welcome to the show it's great to have you here  
i give you a thrill guarantee  
we're the freaks to blow your mind  
and the weirdest of our kind!

[Chorus:]

c' mon take your chance see me and my friends  
doing the psycho dance,  
breath with the sideshow monsters  
breath with the sideshow monsters

we got a mutant baby with a dick on his head  
see a chinese guy who eats himself  
and have you heard about the dwarves from planet mars  
i love my girl with the lifeless eyes  
my zombie bride made in the shade  
i dream of her every day and every night

welcome to the show it's great to have you here  
i give you a thrill guarantee  
we're the freaks to blow your mind  
and the weirdest of our kind!
