

# Riot In Paradise

Mad Sin

the townships are burning  
and the keepers of the law run for their lives  
i'm not the one who brought us here  
i use my mind my fists i will survive  
everybody thought it's paradise  
we live in but they took us for surprise  
and now the power of the underworld creeps out of the sewers so kiss your ass  
goodbye

and the flames are rising to the sky  
adrenaline is pumping i feel high  
and everything is going and that's ok  
because armageddon is coming

riot in paradise  
riot in paradise  
riot in paradise  
riot in paradise  
yeah...things gotta come to an end

you told us this is paradise  
you told us everything's gonna be fine  
and then you took us for slaves  
said working is the key to luck so don't have fun

but now our brains are really psycho  
and things are losing control  
the time has come  
the moon is high above  
and some things gonna be changed until the dawn

and the flames are rising to the sky  
adrenaline is pumping i feel high  
and everything is going and that's ok  
because armageddon is coming

riot in paradise  
riot in paradise  
riot in paradise  
riot in paradise  
yeah...one end, you know there is some fire out there, here we go!

and the flames are rising to the sky  
adrenaline is pumping i feel high  
and everything is going and that's ok  
because armageddon is coming

riot in paradise  
riot in paradise  
riot in paradise  
riot in paradise
