

# Road to Ruin

Mad Sin

Lets Go

drifting through the streets and there's nothing i can do  
suffering brutality, fighting for no clue  
life seems sad and hopeless, but no one really cares  
toxic food and air pollution, future really scares

get yourself together - don't be such a fool  
this life is your own life - you're gonna rule  
take your chance to realize - the ideas in your head  
this sick world we live in - soon it will be dead

life feels like a horror movie, called hell on earth  
just turn on the tv news, peace ain't got a worth  
daily it's the same, hunger, war and pain  
but people react dull, seeing thousand others slain

get yourself together - don't be such a fool  
this life is your own life - you're gonna rule  
take your chance to realize - the ideas in your head  
this sick world we live in - soon it will be dead  
(2x)

life feels like a horror movie, called hell on earth  
just turn on the tv news, peace ain't got a worth  
daily it's the same, hunger, war and pain  
but people react dull, seeing thousand others slain.

get yourself together - don't be such a fool  
this life is your own life - you're gonna rule  
take your chance to realize - the ideas in your head  
this sick world we live in - soon it will be dead
