

Rebellion

Madball

I bust it so control
take matters in my own hands
I must have saw control
my rebellion starts now
Give me fuel 'cause I'm picking up space
please underestimate me
I realize now if you gave me the meet to be.
then myself know for support my cars
no one else could give you a boss
floss and know I made as a boss
of the fact of my life now I take charge
Now my rebels are so wild and.
you should know that the more we go to hell
If you a rebel why not to .
time to take charge send em all to hell
The night deck maybe fight back
you look.put me on the right track

like this so like that
okay give me right back
on that mission to see is control
on the soul of the.fast soul
.to be used and abused again oh no
now I take charge
Now my rebels are so wild and.
you should know that the more we go to hell
If you a rebel why not to.
time to take charge send em all to hell

.
rebels rebels all wild.
time to take charge
time to see control
I bust it so control
take matters in my own hands
I must have saw control
is my charge and my rebellion starts right now
