

## Dreaded Force

Madchild

Mouth full of gold slugs bitch I set it off  
Catch a hot flash like a bitch on menopause  
Everywhere I go get an applause so you had better pause  
Jaws that'll crush the head of jaws I'm a dreaded force

It's been crucial from the start  
Life is brutal without heart  
Nothings beautiful without my dark and mutinous remarks  
Harsh demented sentences, I vent, resent authority  
Formally a king now broken normally feel horribly  
It's easy leaving people spreading evil and disease  
Please believe the devils reach is still as lethal as I please  
Now apparently I'm great now I'm terribly disgraced  
So many errors cause my mind is temporarily misplaced  
And time waits for no man unless you are the rock  
Keep your enemies the closest so I'm up against the clock  
Became the bit reclusive so people see me rarely  
The Shepard in my flock I don't believe in fairies  
Ok I'm iron clad obey the giant man  
K, K, K I'll take on an entire clan

Said I'ma talk some shit

Mouth full of gold slugs bitch I set it off

Turn it all around for this crazy dude  
Take my pants off and jack it blink and do a 182  
Figuratively speaking I'm bigger than these weaklings  
Her ignorance is seeping through thin skin beneath me (completely)  
Greetings I am from another planet  
Sleeping for a while but I don't want another Xanax  
Landed on this planet from a UFO my capes on  
Feeling like my life's the Mr. lonely song from Akon  
Got a queen that cleans for me but she don't wear an apron  
We both make cake but I'm the one that puts the steaks on  
Darling don't forget the maggi and the garlic  
Came to LA was a goldfish now I'm a marlin

With a gas mask on I'm in a psycho realm

Give me a riffle I ride a motorbike through hell  
Madchild I don't need introductions  
Make my own lane planting seeds of destruction  
Wait tragic habit forming savage still got matches for me  
Not conforming to these average lagging maggots bad performance  
Mutilated by a brutal statement its a rude awakening  
Truly blatant mad to moody spacemen in a gloomy basement  
Wait wait no more shows it's un-payable hoes I'm unplayable  
Flows I'm unslayable  
Hold it there slowly getting colder with the bolder glare  
Darkest hardest poet in the parka arctic polar bear
