Hidden

Made of Hate

I am escaping from the source of my desire Trying to fool my heart and mind It's my nature, it will chase me my whole life Until I accept it or die

I am one, made by two Different worlds and different muses Hidden nature comes out when Dreams come true!

The darkest side of me, which you can't see but only feel Won't let my mind set me free!

KICK ASS SOLO !!

It's like my shadow, always with me, hidden in the dark My nature and myself is one

I am one, made by two Different worlds and different muses Hidden nature comes out when Dreams come true!
