

Dream Dream Dream

Madeon

I can hardly explain
All of this love
You're keeping me sane
My love
I'm finally recovered

'Cause I got you to adore
Nothing is true anymore
What I've been through isn't much
Your heart can heal the pain

'Cause I got you to adore
Nothing is true anymore
What you've been through let it go
Your heart can heal the pain

I feel the weight of my dreams
I feel the weight of my dreams, yeah
I feel the weight of my dreams
I feel the weight of my dreams, yeah
I feel the weight of my dreams
I feel the weight of my dreams, yeah
I feel the weight of my dreams

'Cause I got you to adore
Nothing is true anymore
What I've been through isn't much
Your heart can heal the pain
