

Hold Me Just Because

Madeon

Hold me just because
We're alone together
I've been wasting away on my own
I've been waiting for this to get old
I've been trying my best to get over you

Hold me just because
We're in this together
Til there's nothing left of me at all
Just a memory you can recall
I was only a child when I fell for you

Hold me one last time so I can let you go
Something on my mind I need to let you know
Til there's nothing left of me at all
Just a memory you can recall
I was only a child when I fell for you

Hold me just because
Hold me just because
Hold me just because
I'm alone with you
