## Miracle

I've been trying to be every man you saw in me But in my eyes I just flicker out And blur like ghosts Before I go, I know Can you show me a miracle? I wish I'd stay the night, but I've got to go to America And this could take a while Isn't it time that I come alive Endless in this life but I don't know how So I'll go So I'll go And so I'll go And so I'll go Can you show me a miracle? Can you show me a miracle? Can you show me a miracle? Can you show me a miracle?
