I've got tomorrow to

I've got to go all the way

There is a place in the distance A place that I've been dreaming of No more time and space don't exist there We can dance like there's no tomorrow There is a place, no time in space I've got tomorrow to I've got to go all the way I've got tomorrow to I've got to go all the way I've got tomorrow to I've got to go all the way I've got tomorrow to I can feel the city crumbling around me I can't seem to find my way But I can see a bright light calling through dark night Hoping I'll find my way Yeah I had what I wanted It went away so fast fast Yeah I got to let go We can dance like there's no tomorrow So here we go I've got tomorrow to I've got to go all the way I've got tomorrow to I've got to go all the way I've got tomorrow to I've got to go all the way I've got tomorrow to I can feel the heartbeat underneath the concrete Just like a kick drum plays Running in a straight line guided by the street lights Pushing the dark away Yeah I had what I wanted It went away so fast fast Yeah I got to let go We can dance like there's no tomorrow There is a place in the distance A place that I've been dreaming of No oh time and space don't exist there We can dance like there's no tomorrow There is a place, no time in space There is a place in the distance A place that I've been dreaming of No more time and space We can dance like there's no tomorrow Oh oh oh!

I've got tomorrow to
I've got to go all the way
I've got tomorrow to
I've got to go all the way
I've got tomorrow to

Tomorrow
Tomorrow
We can dance
Hey!!
